THE HONOURABLE ROBERT WELCH, Q.C. REGISTRAR GENERAL

## Foreword

I take pleasure in presenting the 100th Vital Statistics Report compiled by the Office of the Registrar General. This report is prepared in two parts.

Part I indicates the trend over the past years in the general state of health of the people of Ontario. Such general trends emphasize certain specific problems in the field of public health such as infant and maternal mortality and deaths from such diseases as heart and cancer.

Part II comprises detailed tables covering the various aspects of vital statistics for the Province of Ontario in 1969.

In conclusion, may I state that, while this report is primarily of interest to certain professions and agencies, it will give other interested persons an insight into the vital statistics concerning births, marriages and deaths in the Province of Ontario.

SIR:

I have the honour to submit for your approval the One-hundredth Vital Statistics Report made in conformity with and under the provisions of the Act respecting the Registration of Births, Marriages and Deaths in the Province of Ontario, for the year ending December 31st, 1969.

I have the honour to be, Sir,

Your obedient servant,

H. J. Humphnes Deputy Registrar-General.

To The Honourable Robert Welch, Q.C. Registrar General of Ontario.

<sup>†</sup>Rates not computed for less than 5 stillbirths.

<sup>\*</sup>Previous to 1962 stillbirths of 28 weeks' gestation and over were registered. As of January 1962 stillbirths of 20 weeks and over were registered. For the years 1962-1965 figures for 28 weeks and over may be obtained from Table 22 in the reports for those years and for 1966, 1967, 1968 and 1969 from Table 12.

## **Infant Mortality**

Shown in Table I are the numbers of infant deaths by age at death over the ten-year period 1960 to 1969. The steadily decreasing neonatal and infant death rate and the stillbirth rate are shown in Chart 3.

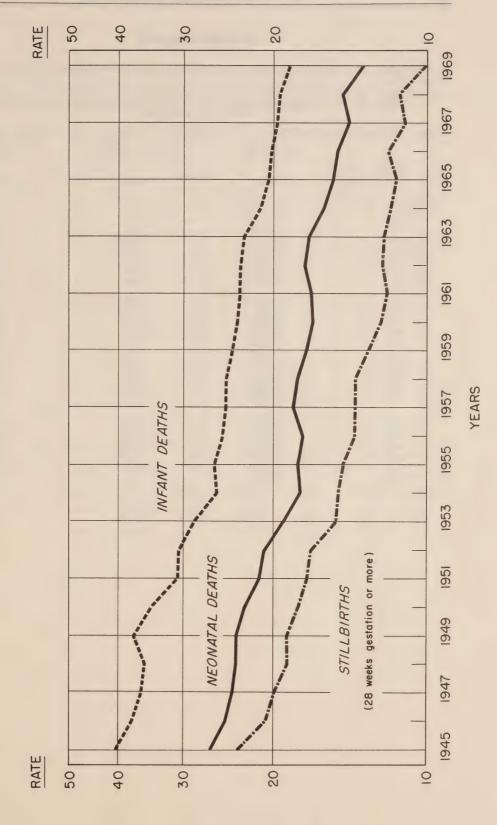

TABLE I INFANT DEATHS, BY AGE AT DEATH, ONTARIO, 1960-1969

Age at Death	:				De	ATHS				
AGE AT DEATH	1960	1961	1962	1963	1964	1965	1966	1967	1968	1969

1960	159,245	55	0.3
1961	157,663	67	0.4
1962	156,053	54	0.3
1963	155,089	46	0.3
1964	152,729	43	0.3
1965	141,610	44	0.3
1966	131,942	36	0.3
1967	127,509	29	0.2
1968	126,257	22	0.2
1969	130,398	20	0.2

## **General Mortality**

The trend in general mortality over the period 1945 to 1969 is shown in Table K. Tables L and M illustrate the general mortality by age and/or cause. A special detailed table for cancer by sex, age-group and sites affected is shown in Table N. Special cross classification of accidental and violent deaths is shown in Table O.

TABLE K DEATHS (EXCLUSIVE OF STILLBIRTHS) AND DEATH RATES PER 1,000 POPULATION, ONTARIO, 1945-1969
